

The product includes three files: **horizontal**, **vertical** and **square**, as well as detailed instructions for use.

The smart layer where you want to place your photo is marked in green. Double click to enter the smart layer "Your Image Here" and insert your photo

When you're done adjusting the placed graphics, hit **Cmd+S** (or **Ctrl+S**) to save the result. You can also use the Photoshop menu by going to **File > Save**.
